

Kids' Voices Count : JPDS-NC Election Project 2016

Below is the list of issues the students in each grade will be studying as part of our election project. Students will also be learning about the electoral process including the math behind the Electoral College and polling, Jewish values and teachings that speak to the issues, and working on developing skills such as interviewing and writing persuasively. Please let us know if you can share your expertise on these topics and more. We welcome your suggestions.

To participate, please contact Janet Collier at janet.collier@jpds.org. She and [Vered Asta](#) will be coordinating class visits.
